Meaningful Innovation.

TOWARDS A BRIGHTER FUTURE

GLOBAL YET LOCAL

V-TAC
Meaningful Innovation.

V-TAC was founded with the vision of providing energy-efficient LED lighting solutions worldwide.

While building a vast portfolio in LED lighting over the past years, we were also able to build expertise in innovation and expand our R&D team to offer a diversified catalogue with over 5000 products to our clients and partners all over the UK and Europe.

Utilizing our brand value and manufacturing technologies, we have been expanding our product categories beyond lighting, with one mission to improve the lives of humanity worldwide.

Now, we are moving towards promoting sustainable practices that will help citizens and businesses lower their carbon footprint, and become a global leader in providing energy efficient systems — including solar panels, inverters, battery packs, and power stations.

Creator for the everyman

Innovation for everyone.

Our purpose is to make the world a brighter place for all. We act on it by providing innovative and efficient solutions at value-pricing to make them accessible to the everyman.

Through our value pricing strategy, we bring efficient and sustainable products to every home, workplace and industry.

OUR JOURNEY SO FAR

V-TAC
Meaningful Innovation.

2009 — V-TAC was founded with the vision of providing energy-efficient LED lighting solutions worldwide

2011 — Began our EU expansion by opening the first V-TAC warehouse and office in Sofia, Bulgaria

2013 — Started building our distribution network in the UK from our office in Southall, London.

2015 — Launched our in-house product testing lab in Sofia, Bulgaria.

2016 — Achieved $100M Annual Turnover- Manufacturing Joint Venture with DASHER Lighting for decorative lighting.

2017 — In-brand partnership with Samsung. Launched the V-TAC Pro series.

2018
- Partnership with Tuya and launched new Smart Series
- Unveiled the new V-TAC Showroom in Slough, UK

2019 — Opened new office in Poland.

2020
- New website launch
- Opened new office in Ireland.

2021 — Centralized warehouse in Bulgaria extended to 42000+ sq mts.

2022 — Progressed into the green energy era with our new Renewables range

2023 — 10 year anniversary in the UK

2024 — Announced partnerships with Midea and Sinexcel

2025 — In-brand partnership with CREE

Linear Lights

V-TAC LED Linear Lights are an energy-efficient, low-maintenance alternative to traditional linear fluorescent in industrial, commercial, and light assembly applications. It is the optimal solution for conventional lighting systems and excellent for new installations due to its low installation cost.

LED Panels

The PRO Series LED panels range are all made with top-quality PMMA diffusers which provides a uniformly distributed light and prevents the panels from turning yellow. It proves its durability with exteriors composed of an innovative combination of Aluminium+PMMA+PP, and its energy-saving upgrade through the improved driver box and Samsung LEDs. Both mini and big panels are inclusive of a quick connector for easy installation.

Motion Sensor

Many areas, such as driveways, lobbies, parking garages and staircases remain unused for long hours but do need lighting to be lit automatically in case of movement. A motion sensor is a device that detects movements, and in some cases, light conditions and then transmits a signal for illumination.

LED Spotlights

Our new range of LED spotlights with Samsung LEDs are the leading choice for efficient directional lighting solutions. This new range is perfectly compatible with existing GU10 holders. They deliver the same warm light as halogen spots while exhibiting the energy-saving benefits that LEDs provide. Ideal for retail and residential lighting.

Wireless Switches

Introducing the next generation of self-powered wireless switches, which operate via an RF receiver, making their use simple. Offering a push-touch button and remote features. Smart Switch is made of advanced PC material with high strength, high impact, and high-temperature resistance, non-toxic and eco-friendly, easy to clean, and colour-fadeless. No-screw design on panel surface; big button design with indicator; easy on/off operation with good sense of touch; low sound of pressing.
